

01 The Problem

What frustrates your future users today? Describe it like you would to a friend.

Busy dog owners can't find trusted walkers at short notice, and current options are word-of-mouth or unreliable social groups.

02 Who It's For

Describe one real person who would use it every week.

Aisha, 32, works long hours in Guwahati, owns a Labrador and would pay for a vetted walker she can book in two taps.

03 Your Idea In One Sentence

"An app where ___ can ___ so that ___."

An app where dog owners can book verified walkers nearby, track the walk live and pay in the app.
